iltc is a social enterprise with the aim to enhance effective communication among individuals and groups of various cultures, religious backgrounds as well as economic standing. Successful communication fosters mutual understanding and increase in knowledge for all involved. This ultimately strengthens the sense of unity and solidarity among people of all nations leading to peace and human development. Every individual has a right to broaden his/her horizon by learning more about him/herself through gaining access to the vast knowledge and cultural diversity of the people of all nations. For that reason educational opportunities and skills related to communication in its broadest sense must be made available to everyone regardless of age, origin, philosophy, social standing and or economic power.

Iltc Mwanza for many years has financed scholarships for Tanzanian children and adults through the fees paid for our services by foreign nationals and researchers. Due to Brexit and change of government in the U.S. the number of foreign students has decreased rapidly. In order to keep in operation we need to raise **25 000 000 TSH**. If we get the amount required we can pay our rent and debts while looking for new sources of finance. In exchange we shall conduct the following trainings for free for Tanzanian Nationals (99 adults,10 children):
